

ACHPER Victoria is pleased to announce our HPE webinars series designed specifically for Primary Teachers. Participants will have access to attend these webinars live and will be provided access to the recordings following each webinar. Q&A opportunities will be also available.

Webinar Date and Topic		Session Outline		
Curriculum Planning – Setting the Vision 27 July 4-5pm REGISTER		While laying the foundation for the series, this webinar will focus on: <ul style="list-style-type: none"> - The importance of planning - Developing your Physical Education program vision and learning outcomes - Introducing a thematic approach to planning 		
Curriculum Planning – Scope and Sequence 3 August 4-5pm REGISTER		This webinar will take you through a systematic approach to developing your yearly, semester and unit plan scope and sequence. Using examples from the ACHPER Victoria Curriculum Charts further develop your ability to identify clear learning outcomes to address the specific needs of your students and school context.		
Understanding Fundamental Movement Skills (FMS) 10 August 4-5pm REGISTER		What are FMS and why are they important? Understanding key principles in the development of FMS including sequence, timing, what influences development, time needed to learn, mastery of FMS vs functional development and application.		
Teaching Fundamental Movement Skills – Non-locomotor 17 August 4-5pm REGISTER		This webinar will focus on teaching critical non-locomotor, locomotor and object control skills. Learn how to develop skills from simple to more complex movements, building student capacity across a range of movement settings and applications. You will be challenged to consider where you place your focus on FMS based on the needs of your students.		
Teaching by themes – Game Sense (Part 1) 24 August 4-5pm REGISTER		This webinar will focus on a themed based approach to teaching where you focus on key movement skills and concepts within a game sense structure. This session will introduce the four key game/sport categories using examples from the invasion/territorial game category to highlight how to build student capacity from simple to more complex activities.		
Teaching by themes – Game Sense (Part 2) 26 August 4-5pm REGISTER		Building on the previous session, this webinar will highlight key movements skills and concepts in the net/wall, striking/fielding and target game categories. You will develop an understanding of important aspects of each category to focus your teaching on.		
Assessment 7 September 4-5pm REGISTER		What are the key principles of affective assessment? This webinar will demonstrate the why, how and what of assessment using a range of formative and summative examples to ensure your assessment is linked to your teaching and learning and enables you to provide meaningful feedback to your students.
