

ACHPER Victoria is pleased to announce our HPE webinars series designed specifically for Secondary Teachers. Participants will have access to attend these webinars live and will be provided access to the recordings following each webinar. Q&A opportunities will be also available.

Webinar Date and Topic	Session Outline		
Curriculum Planning – Setting the Vision 28 July 4-5pm REGISTER	While laying the foundation for the series, this webinar will focus on: <ul style="list-style-type: none"> - The importance of planning and overarching considerations to drive program development - Developing your HPE program vision and learning outcomes - Introducing a thematic approach to planning 		
Curriculum Planning – Scope and Sequence 4 August 4-5pm REGISTER	This webinar will take you through a systematic approach to developing your yearly, semester and unit plan scope and sequence. Using examples from the ACHPER Victoria Curriculum Charts further develop your ability to identify clear learning outcomes to address the specific needs of your students and school context.		
Curriculum Planning – Health Education Scope and Sequence 11 August 4-5pm REGISTER	Build on the foundations established in the previous two sessions, with a specific focus on building a relevant Health Education program, targeting the needs of your school and students.		
Developing student learning through the game sense model 25 August 4-5pm REGISTER	This webinar will explore: <ul style="list-style-type: none"> - The Game Sense model and how it can be applied to 7-10 HPE - Content within each category - Development of units as thematic categories - Pedagogy applied to small sided, designer games to enhance tactical, technical and personal/social skills 		
Invasion Games – Empowering students to think 1 September 4-5pm REGISTER	This webinar will explore invasion games in more detail, aiming to examine strategies and activities from a range of sports and games to help create more game awareness for students. This session aims to enable teachers and coaches to empower their students to think and strategize meaningful responses to invasion game concepts, thus developing their creative and critical thinking.		
Threshold concepts in PE 8 September 4-5pm REGISTER	This webinar will target those educators looking for a challenge and new ways to extend and engage students in PE. Threshold concepts are described as the ideas and mindsets crucial to students gaining a genuine understanding of our subject. When students cross these thresholds, new and previously inaccessible ways of thinking about aspects of HPE are revealed. This webinar explores threshold concepts and will provide an opportunity for discussion around how these could apply to your students.		
Participation Costs	ACHPER Member	Non-Member	Student Member
